### CONDITIONS OF SALE.

This is a bona-fide public sale, for prompt cash settlement, and irresponsible persons who are not sure whether they can pay for what they bid on, are asked not to bid. The cataloguer has taken special pains to describe each lot accurately. Errors will be corrected, but he reserves the sole right to decide upon any claims. No corrections or refunds will be made, and no lots can be returned, unless the bidder submits his case in writing within 30 days of the date of the sale.

Coins and medals are sold at so much per **PIECE**, and no lot will be separated. The auctioneer will accept any bid up to 50c., then 5c up to \$2.50, when 10c. advance must be bid, up to \$10.00, when no advance under 25 cents will be accepted. If there are 5 pieces in the lot and you wish to pay \$5.00 for the entire lot, then bid \$1.00.

Auction sales are **strictly for cash**. Parties unknown to me and bidding for the first time, must give bank or other reliable reference, or their bids will not be executed.

Forward your bids as early as possible, as thousands of bids have to be entered. Do not make ridiculously low bids, such as 10c. and 15c. on foreign silver coins worth several times over as bullion. Write your bids plainly, with a pen if practicable.

Where the number of pieces in a lot is not given after the description, there is but one piece in the lot.

**Be sure you bid on the lot you wish to buy.**

All coins, etc., are genuine unless otherwise described.

A charge of 5% will be made to cover packing and shipping, but where the parcel is bulky an additional packing charge will be made. No charge made for bidding except for lots actually purchased. Remit by money order or New York draft.

Priced catalogue of this sale sent for \$1.00 cash in advance.

If any further information is required as to valuation of lots, or how to bid, please write the cataloguer. THOMAS L. ELDER.

## THE B. P. WRIGHT SALE, PART II.

While we now find ourselves in the midst of a colossal World War, the country is more prosperous than at any previous time. Even if the War should last for years, the writer predicts there will be no abatement of prosperity here. Our resources are practically untouched, and as in the past three years of War the European nations will depend on America and draw on America for food, for supplies, for commodities of all kinds.

As the War progresses and further saps the old World's resources the new world will profit and her exports multiply. One report says the Entente Allies will spend \$10,000,000,000 through one man alone in the United States next year. All these facts and figures mean that America will continue to hold the wealth of the world. There can be no other outcome. ~~Numismatists and~~ Coins are a safe and sure investment—and cannot decrease in price in the future.—Our own sales have within the past few months given testimony to this by a number of prices smashing all world's records.

Catalogue of the B. P. Wright Collection (Part II) contains many items of interest, as well as several other smaller consignments. The offerings include examples of Ancient Silver and Bronze, Greek, Bactrian, Parthian, Sassanian, Oriental and Roman Coins; a remarkably fine collection of modern foreign Copper Coins, a large and varied group of U. S. Small Cent patterns, United States and Private, as well as Foreign Gold, Foreign Silver, Continental, Confederate and U. S. Currency, Minor Coins, U. S. Cents and Half Cents, Jackson Tokens, Medals, Bryan Money, Lincoln Medals, etc. Also a fine lot of Cut and Polished Genuine Gem Stones suitable for Jewelry mountings—Babylonian, Egyptian and Roman Relics, scarabs and amulets. A study of this catalogue will convince you of the great variety and interest of the offerings: There is something here for everybody.

New bidders are specially requested to **Read The Terms of Sale before Bidding**, as all bids are by the piece and subject to the terms stated.

Trusting this catalogue may awaken the interest it deserves, and asking for a liberal number of bids, we are

Oct. 27, 1883.

My dear Sir:—I am much obliged for the photograph of your fine medal. The obverse is in somewhat better condition than ours, but from the same mould. The reverse we have not, though we have a similar composition as a reverse type to a similar obverse.

The work is undoubtedly Italian and the date about 1550 as nearly as we can surmise. Perhaps M. Alfred Armand, 7 Boulevard des Capucines Paris could give you some further information. Yours sincerely, (Signed) Reginald Stanley Poole." With the lot also are fine photographs of both obverse and reverse. The most remarkable medal I have offered in years. Original and of great rarity.
